RE: BLVD Place

Dear Jim:

Thank you for taking time to meet with us to review the delivery schedule for our steel fabrication order for Building No. 6 at **BLVD Place**. As we discussed, we seriously need to hold or be within a few days of the original delivery schedule and dates.

Your cooperative attitude and spirit was really appreciated and meant a great deal to us. Your positive comments and assurances that we have a good chance to meet the original schedule should allow us to deliver spaces to our retailers in time for them to be open for their 2008 Holiday Season.

I now better understand your fine reputation and strong commitment to a high level of service. Also thank you for the tour of your facility, which was most impressive, and, most importantly, your willingness to work with us to maintain our schedule. We are most pleased to have you and your firm on the **BLVD Place** Team.

Sincerely,

E. D. Wulfe
President
